

Event 2: Phoenician's Markets

The mapping for event #2 is taken from Ezekiel's prophesy on Tyre, a Phoenician port on the Mediterranean coastline. Tyre is a main exchange point for overland and maritime trade.

The markets that had trades with Tyre are all over the map: TARshish, Ja-VAN, Rhodes and islands, To-GAR-mah, ME-shek and TuBAL, A-ram, AS-shur and all Media, Damascus, Israel and Judah, Ke-DAR, De-DAN, and Sheba and Raa-MAH. The Land Between is situated between three continents - Asia, Africa, and Europe. Tyre was a leader in the trading markets because of its location in the land between. When we read Ezekiel's prophesy of the fall of Tyre, we realize once again that YHWH is truly the God of history, who controls the rise and fall of cities and nations.
